How would the guests of honor like their names to appear on the title card in the video?			

Please tell us about some of your favorite songs and artists. We ask for more songs choices than we usually need and so it's possible that not every song will make its way into the edit. Because we give you the opportunity to select the songs that you love, we ask that you allow us the control of choosing the best moment of the day for its placement in the video.

We get best results with modern music choices (1990s and later). We like using songs that have a modern structure with verses and choruses. Songs that have a well defined beat and musical dynamics make it easier to edit; crescendos, volume swells, symbol crashes — these are all great elements that can accent the video footage we choose to have at that moment. Older artists like the Beatles or Elvis, although their songs are timeless, can sometimes be troublesome for editing to our modern style. If you have your heart set on an older song, please consider a modern cover (Michael Bublé covers are always awesome) or a remake. If these guidelines are too strict, please feel free to reach back out to me and I'll be more than happy to send suggestions.
